Spectrum is a unique, Biodegradable Multi-purpose **Cleaner/ Degreaser** Concentrate designed to be as **complete** a cleaner as possible. It is **safe**, non toxic, non flammable, non-corrosive, and neutralizes most odors.

Each gallon will produce a **minimum of 4 gallons** of heavy duty cleaning & degreasing solution, greatly reducing your costs.

It may be **used safely** on all type surfaces - including fabrics, Fiberglas, metal, painted surfaces, carpets, and vinyl. It can replace products used for cleaning and degreasing and **save you money**.

5 Cleaners <> 1 Product

Standard **Clorox® Bleach**, or **Distilled Vinegar**, or **Hydrogen Peroxide** may also be **safely** added to this product **Creating 4** additional high **quality cleaners** for different applications - reducing janitorial supply costs. No other product on the market offers this unique **capability**.

This ability allows Spectrum Cleaner Concentrate to **out perform** all other cleaning compounds on the market! Whether it is motor oil, grease, cooking grease, it doesn't matter - it **easily** does the job for you.

Because this product is a **true concentrate**, you will **save** money and number of containers required to do your job - simply add water, creating a **ready to use** solution for that particular application.

Our Concentrate is a **Professional Grade** Cleaning Compound designed for **tough** commercial jobs - it is used in the following applications:

- **Commercial Cleaning**
- **Industrial Cleaning**
- **Home - Apartments**
- **Autos - Boats - Campers**
- **Offices - Buildings**
- **Textured - Popcorn - Drop Ceilings**
- **Restaurants**

Reduce your cleaning solution costs - stop paying outrageous prices! This **unique** multi-purpose commercial cleaning and degreasing formula will make your cleaning jobs a lot easier plus more **economical**.

Using Spectrum Concentrate

Safety: With any cleaning project, it is equally important to use the proper tools and safety procedures as well as a good cleaner - always wear protective **Safety Glasses** when spraying cleaners overhead or outdoors. **Never** spray cleaning compounds around infants or small children, no matter how safe they are!

Cleaning tools recommended are:

- A. Clean, non-colored terry cloth towels - use no fabric softener.
- B. Medium Bristle Brush for porous surfaces.
- C. Nylon Dobie® or 3M Scotch Brite™ pad for crusted stains.
- D. Deck or Steel Brush for concrete surfaces.
- E. Commercial equipment for larger jobs.
- F. Garden Type pump sprayer for large ceiling areas.

Recommended Application Tips

- 1. Hard Surfaces** - apply Spectrum to stain - agitate with cloth, brush, or Dobie®. Remove with clean cloth or rinse with water.
- 2. Porous surfaces** - spray on area to be cleaned, then, using a medium bristle brush, agitate solution into surface, allow ample working time. Remove with clean cloth or rinse with water. For severe stains - try heat treatment described under Kool Aid section.
- 3. Hard crusted stains** - spray on area to be cleaned and use Nylon Dobie® or 3M Scotch Brite™ pad to work it into surface. Allow solution to work for 1 minute or longer, then use clean dry cloth to remove stain or rinse with water.
- 4. Flooring & Carpets** - Apply with mop or brush on hard surface flooring. Use floor buffer for large areas. When cleaning entire rooms of carpeting - add 2 oz. of vinegar / gallon to produce a wetter solution leaving fibers soft when totally dry.
- 5. Ceilings** - Mix Hydrogen Peroxide Formulation in Garden Type Sprayer - use fine mist setting, making sure not to saturate surface. Wear Safety Glasses to protect eyes.
- 6. Latex painted surfaces** - Should mixture dry too fast - add 1/2 oz. vinegar to solution or agitate surface with damp cloth.
- 7. Glass Surfaces** - Window Formulation works best - never use cloths containing fabric softener, streaking will occur, no matter the cleaner used.

Spectrum Cleaner Applications

Mixing Ratios

Extra Heavy Dilution

8 oz. / Quart
32 oz. / Gallon

Heavy Dilution

4 oz. / Quart
16 oz. / Gallon

Light Dilution

1-2 oz. / Quart
4-8 oz. / Gallon

Carpet Machine

8 oz. / Gallon Cold
4 oz. / Gallon Hot

Heated Dip Tanks

1-80 or 1-100
@ 160° F

High Pressure

1-50 or 1-100 Cold
1-100 or 1-200 Hot

Bath Cleaner

Quart
4 oz. Spectrum
2 oz. Vinegar
Gallon
16 oz. Spectrum
8 oz. Vinegar

Bleach Cleaner

Quart
6 oz. Spectrum
2 oz. Bleach
Gallon
24 oz. Spectrum
8 oz. Bleach

Glass Cleaner

Gallon
1 oz. Spectrum
2 oz. Vinegar

H2O2 Cleaner

Gallon
16 oz. Spectrum
16 oz. H2O2

Autos - Boats - Campers

Exterior: Light Interior: Heavy

Whitewalls: Extra Heavy Tires: Extra Heavy
Detail inside and out

Bathrooms - Soap Scum

Bathroom or Glass Formula

Safe on Fiberglass Showers and Tubs.

Carpets

General: Medium - Spots: Heavy

Spectrum will safely clean and neutralize most stains and odors.

Ceilings [All Types]

Hydrogen Peroxide Formula

Spectrum will safely clean Acoustical Textured (Popcorn type) and Drop ceilings

Crayons - Markers - Gum

Heavy - Extra Heavy

Safely removes them from carpeting.

Dyes - Inks - Paint

Heavy - Extra Heavy

May use concentrate to break bond.

Flooring

General: Light - No Wax: Light

Wax: Heavy - Wood: Light

Safe on hardwood floors.

Kitchen Area

General: Med. - Grease: Heavy

Easily removes grease and burned on foods.

RED FOOD DYES

Medium - Heavy

Set in stains require heat treatment

Works on patio and deck furniture

Smoke - Soot

Heavy - Extra Heavy

Approved for Butler Texture Cote™ building panels.

Upholstery - Furniture

Light - Medium - Heavy

Safe on color fast fabric

Walls - Wall Coverings

Medium - Heavy

May be used on String Cloth.

Cleaning Tips Brochure includes complete instructions and additional tips.

Bathroom - Glass Formula

Use Five (5%) Percent Strength Distilled **White Vinegar** which is readily available locally. The Vinegar may be safely added directly to the concentrate - add water and keep mixture closed with cap or sprayer.

Formulation will safely clean and brighten finished metal surfaces such as brass, chrome, and polished aluminum.

Bleach Formula

Use (5.25%) strength Sodium Hypochlorite (**Bleach**) which is readily available from - store brands work well for this mixture. The Bleach may be safely added directly to the concentrate. This formulation will safely remove most black mold and mildew when lightly agitated and can also be used on painted, plastic, resin plastic, and vinyl patio furniture along with umbrellas and wooden decks.

Hydrogen Peroxide Formula

Use only Three (3%) Percent Strength **Hydrogen Peroxide (H2O2)** Solution which is available from Drug, Grocery, and Discount Stores. The Hydrogen Peroxide may be safely added directly to the concentrate. Hydrogen Peroxide is a strong **oxidizing agent**, it is imperative that fabrics be tested for color fastness. Do not mix until ready to start - long term storage reduces effectiveness. Left over mixture makes a good kitchen counter cleaner, tile cleaner, and laundry pre wash for whites.

FIRST AID - CONCENTRATE

Eyes: Irrigate with flowing water, including under eyelids, for 15 minutes. If irritation persists, get medical attention.

Skin: Wash with soap and water - use lotion if skin becomes dry.

Ingestion: Product has extreme bitter taste and is hard to swallow. Never give anything by mouth to an unconscious person. Dilute by drinking large quantities of water. If available, give two or three glasses of milk - do not induce vomiting. Get medical attention. Material Safety Data Sheet (**MSDS**) lists components.

Warranty - Notice

The end user **assumes** all responsibility for testing and using the mixtures and procedures described herein and the manufacturer shall not be liable for any consequential or other damage resulting from product use. **Never mix** Bleach, Hydrogen Peroxide, or Vinegar mixtures together - toxic gases can be released.

Thank you for your interest - we look forward to helping you solve your tough cleaning problems in the near future.
